

02393 Programming in C++

Module 8: LAB DAY

© Giovanni Meroni and Alceste Scalas

Lecture plan

Module	Date	Title	Textbook chapters
0 and 1	29/08	Welcome & C++ Overview	1
2	05/09	Basic C++ and Data Types	1.5, 2.1, 2.3 - 2.5, 11.1, 11.3
3	12/09	LAB DAY	N/A
4	19/09	Memory Management	12.1, 11.2, 11.3
5	26/09	Libraries and Interfaces	2.2, 2.6 - 2.8, 3.1 - 3.3, 4.1 - 4.3
6	03/10	Classes and Objects	5.1, 6.1, 11.2, 12.1, 12.4, 12.7
7	10/10	Templates	5.1, 14.2
Autumn break			
8	24/10	LAB DAY	N/A
9	31/10	Inheritance	19.1 - 19.3
10	07/11	Recursive Programming	7
11	14/11	Linked Lists	12.2, 12.3
12	21/11	Trees	16.1 - 16.4
13	28/11	LAB DAY	N/A

Lab time

- Today there are no new topics, only C++ practice.
 - The TAs are available to help.
 - Make sure C++ works on your computer, request help if it doesn't
 - Continue working on Assignment 7, if you have not solved it yet
 - Try solving exam samples for past years
 - We have not covered all topics yet, but you should be able to solve at least part of the exercises
 - You can test your solution to May 2021 and December 2021 exam samples on Autolab
 - Ask questions if something is unclear (including previous assignments)
